OBJECTIVE

- Undergraduate and mid-level data scientist. I have experience working on projects using SQL and Python and visualizing them with Tableau. I am looking for an entry level data scientist position that combines my passion for data with my desire to understand it and face the world's greatest humanitarian challenges . I am currently looking for a higher role where I can apply my data visualization experience to understand the world's greatest humanitarian challenges.

EDUCATION

- Education: Computer science, Modern Academy for science and Technology, Maadi

- Graduation Year: *2023*

EXPERIENCE

- I have worked at ElGizawy manager assistant
  - Responsibilities:
    Following up with My Team to know what they have installed and what needs a follow up and provide a weekly report.
    Contacting customers to know if they have any complains. Following up with my team to finish any open project.
